## Quickes Clothbound Cheddar

**Origin:** Devon, England  
**Milk Source:** Pasteurised Cow  
**Rennet Type:** Animal  
**Style:** Cheddar  
**Size:** 24kg wheel  
**Approximate Age:** 18 months

This farmhouse cheddar is hand-made with milk from the farm that has been in the Quickes family for over 450 years! The cloth covering allows the cheese to breath during maturation, leading to a small moisture loss that creates the distinctive open, crumbly texture. As the cheese becomes more mature it's common for small veins of blue mould to start to creep in from the corners – this is not a fault and is highly desired by some cheese-lovers.

**Tasting Notes:** Quickes is a classic cloth-bound cheddar – big and bitey with hints of creamy milk and rich cultured butter on the finish with a subtle salty note.

**Uses:** Cheese platter, sandwiches, ploughman's board

**Wine Match:** Cabernet Sauvignon, crisp apple cider, craft beer

**Try with:** Balsamic onion relish, green tomato pickles, charcuterie
